North Main street Hutchinson

How do you like the gold squeeze anyhow?

Where is the five per cent money promised us by Judge Stimmler?

And is this the millennium that was to follow the restoration of confidence?

If a state convention was held today to nominate a candidate for governor Morrill could not control twenty counties in the state.

The act pertaining to protecting of the fish of Kansas will soon become a law. This does not apply, however, to the suckers of the "confidence" variety.

Where are the scandals, that were to be exposed by the redeemer legislature as promised by Hornaday, the special Topeka correspondent to the News.

Lost. A campaign issue, labeled on one side "confidence" on the other "for suckers." Liberal reward will be paid for it by returning to Republican State Headquarters and no questions asked.

The News and Herald have done the war paint. The nearest to a conflict they have come is the News has said "Another lie nalled." Fletcher will be home soon and then you may expect blood on the "Moon."

Capt Coffin in last week's Headlight in an article on Judge Horton says:

"It is reported that he has had many offers from great railroad corporations to serve as a position as railroad attorney. In his long service as the head of the Kansas board of appeals he has displayed a genius in construing the law in the interest of corporations that recommends him to favor."

"There could be but objection to his employment by a railroad corporation. Kansas has over 8,000 miles of railroad, fairly divided in corporate rights between six roads. They would readily understand that their interest would be subserved, their rights made secure and protected with Judge Horton in the bench more than Citizen Horton in the employ of any one of them as attorney."

A tree is judged by the fruit it bears and a man is known by the company he keeps. The friend of the Kansas law reports tickler the palate of the corporation gormand. A time pass in his honor's pocket develops his genius and aptness in the cause of the masters is clever and disinterested except to further the cause of justice."

MYRON REED'S NEW CHURCH.

During the heat of the miners strike last summer Rev. Myron Reed, of Denver, pastor of one of the leading churches, in a sermon, took the part of the oppressed miners and the result was, he lost his job. He immediately took the stump for the people's party and preached the doctrines of the Lowly Nazarene, from the stump instead of the pulpit.

Some weeks ago one of the largest churches in the city of Denver was tendered him to use, and a new church without any creed has been established. The Denver Road of last week says:

Another tremendous audience greeted Myron Reed at the Temple last Sunday. A study of the faces would convince anyone that the people come not out of curiosity, but because they love, admire a respect the man.

His sermon was full of Christ and Christ thoughts and when he closed, everyone left his presence with a better opinion of humanity and with more hope.

Reed's new church is a success and its future is now an established fact.

A RICE.

Hutchinson is 225 miles nearer Canon City than Kansas City is, yet Canon City coal retails \$2.00 per ton less in Kansas City than in Hutchinson. If the Commercial Club is interested in the welfare of Hutchinson it should remember that Hutchinson must have some practical attractions before people will come here. The high price paid for coal and other necessities of life causes a depreciation of other property.

The above article appeared in the GAZETTE columns about four weeks ago. During the following week the Topeka Capital published the following as a general news item.

Hutchinson is 225 miles nearer Canon City than Kansas City is, yet Canon City coal retails for \$2 a ton less at Kansas City than at Hutchinson, and the Hutchinson Commercial club is looking into this.

This item afterwards appeared in the Kansas Newspaper Union ready print.

We do not object to any of our article

lesor part of them being reprinted, but we do object to articles being turned around and made to do the opposite to which it was intended. The original article was written to remind the Commercial club that if its object was to help the city it was direct in its duty. The article of the Capital places the Commercial club in a light which is a libel on the institution.

FROM OUR EXCHANGES.

If Governor Morrill makes as big a botch of the other part of his administration as he has of his appointments, he will go down in history as the champion clump of the state.—Interior Herald.

It is not true that the populists have hired Mr. Cleveland to destroy the democratic party in the interest of the people's party. They have not paid Grover a cent for all the services he has rendered.—Galesburg, (Ill.) Watch Tower.

Why not allow newspaper men to issue notes to the extent of their unpaid subscriptions and have Uncle Sam guarantee their payment? Newspaper men should have some rights in this country as well as the bankers.—Seneca News.

Congressman Jerry Simpson, of Kansas, is nothing if not a humorist. Last Wednesday he stated on the floor of the house that as the representatives of the democratic and republican parties were so backward about claiming the credit of killing the Carlisle currency bill, he would now claim that honor in behalf of the people's party.—Raleigh (N. C.) Progressive Farmer.

It will only require 25,000 car loads of wheat to pay the annual interest on money that Cleveland has borrowed to date. This will require a train of cars 180 miles long and the annual loss to the farmers on wheat alone as a result of going to a gold basis will reach the enormous amount of \$600,000,000. And the blessed consolation they have in contemplating this loss is the fact that what they do get is "honest" money.—NonConformist.

The first clause of the administration bond contract is animated by the old Spanish idea that no matter how gold is got into a country from abroad it is a gain in wealth, and that in order to remain forever wealthy a country has only to find some successful way of hoarding gold. However they may differ on other points, well-informed economists are agreed that this idea had more than anything else to do with degrading Spain from the first commercial power in Europe to what it is now.—New York World, (dem.)

Thirty years after Lincoln's death it came to pass that in many cities the people of leisure and of the fashionable clubs and churches celebrated the good man's birthday in modern style. But so far as we can learn, none of the dude orators made particular mention of the fact that their ancestors, the people of fashionable clubs and churches thirty-five years ago, reviled and ridiculed Lincoln just as they are reviling and ridiculing the leading populists of today. Yet the fact remains, just the same.—Topeka Advocate.

Roadsters.

From Denver Road.

Duke Pullman should haul his judge up and fine him for contempt. Grosscup should be stepped on.

Land, water, air and sunshine are the natural inheritance of God's children. Corporations have a "legal" but not a valid right to deny this fact.

The reason so many people are hungry is because of so much "over production." If you don't believe us, ask any "political economist" of national reputation and see if he don't tell you so.

Bonds! Bonds!! Bonds!!!
Pile 'em higher.
Heap 'em up.
Some day they will make a splendid bonfire for Americans to back up and warm themselves at.

"Engraving plates for new bond issues" seems to be quite the fad. Engraving epitaphs on tombstones will become a greater fad if a halt is not soon called on the gold basis gang—and the people will do the carving, too.

Education is the only way to head off a bloody revolution.

Deputies and soldiers can not head it off.

Wise men and statesmen, should consider this fact.

You can push people about so far and no farther. Americans cannot be lashed by the usurers like the Egyptian. No! No!!

An exchange remarks: "Every time Cleveland and Carlisle issue a new lot of bonds the people ought to buy a new supply of guns."

Right you are. The day will come when the bondage of bonds will have to be jarred loose.

A revolution will do the work.

Revolution means repudiation. All true patriotic Americans will fight before they will pay any part of the fraudulent issues of bonds.

KANSAS A. O. U. W. OFFICERS.

W. W. Wallace of Kingman Selected Grand Master of the Grand Lodge.

Wichita, Kan., Feb. 27.—The state grand lodge, A. O. U. W., was welcomed by Mayor Cox yesterday and then organized for business. At the afternoon session W. W. Wallace, of Kingman, was elected grand master workman for the ensuing year and L. M. Penwell, of Topeka, grand foreman.

This morning the grand lodge completed the election of officers as follows: Grand over-seer, A. E. Mueller, of Colwich; grand recorder, E. M. Forde, of Emporia; grand receiver, T. A. Beck, of Topeka; grand guide, William C. Moss, of Kansas City; grand watchman, W. A. Morgan, of Lansing; grand medical director, A. B. Peters, of Mankato; representatives to the supreme lodge, Grand Master E. H. Wheeler and Past Grand E. Murphy and E. C. Weillup.

OPEN SUNDAYS SOUGHT.

New York Labor Leaders and Germans Ask for Less Strict Laws.

New York, Feb. 27.—Various labor organizations and German singing societies met at the Terrace garden last night to take steps toward inducing the legislature to pass more liberal excise laws and permit of a more open Sunday. Over 100 organizations, representing 110,000 voters, were represented.

Resolutions were adopted decrying the present "blue laws" and their strict enforcement and calling on the legislature for relief. A committee of fifteen was appointed to call a mass meeting of liberal-minded citizens and draft a bill to present to the legislature to provide either directly for an open Sunday or to leave the question to a popular vote of the people.

A MILLION IN ASHES.

Destructive Flames on the Wharves at Halifax—Government Losses Heavy.

HALIFAX, N. S., Feb. 27.—Property to the value of \$1,000,000 was destroyed by fire to-day in the vicinity of Deep-water wharves. All of the government immigration sheds, wharves, offices and other buildings burned. Several firemen were injured. The Dominion government losses upwards of \$600,000, and there was a loss on goods stored in the burned sheds which will amount to about \$400,000. Of this the city merchants lose \$200,000. The fire burned fiercely, fanned by a strong wind, and for hours it seemed as if the section of the city where it broke out was doomed.

Senator and Sheriff Fight.

PORTLAND, Ore., Feb. 27.—In the corridor of the Worcester building last night State Senator Henry E. McGinn was called a sneak by George C. Shears, sheriff of the county. The senator responded by landing his right on the sheriff's jaw. Shears drew a revolver and struck McGinn between the eyes with it. Before any further damage could be done witnesses to the affair separated the men.

Syndicate Still Depositing Gold.

New York, Feb. 27.—The deposits of gold at the sub-treasury yesterday on account of the Belmont-Morgan syndicate amounted to \$1,500,000. The government's gold reserve now exceeds \$80,000,000. The gold that the Belmont-Morgan syndicate is now depositing is surplus over and above the contract requirements. That surplus already amounts to over \$6,000,000.

John Burns says he is astonished to see so many churches in the rich residential section of New York. If Mr. Burns expected to find the churches in the poorer quarters of the city of the tenement house district he must, indeed, be ignorant of the latter-day policy of most of the American clergy. Our illustrated premium list sent free to any address.

River Side Elevator and Feed Mill

I want to announce to the public that I am now ready to grind all kinds of feed, at my mill and elevator in South Hutchinson. Cash paid for all kinds of grain.

P. A. FLOCHIN.

Fast Time to the South.

The Mobile & Ohio railroad has put on a double daily fast train service between St. Louis and the South. This makes the Mobile & Ohio the quickest as it is now the shortest route to Memphis, New Orleans, Mobile, Birmingham and all Florida winter tourist points. All trains are equipped with Pullman Palace Buffet Drawing Room Sleepers and handsome easy riding day coaches. The Mobile & Ohio has always been popular with the traveling public, and this fast train service will make it still more so.

E. E. POSEY,

General Passenger Agent.

In proportion to the size of the city in which it is printed, The Kansas City Star has a larger circulation than any other American newspaper. Its remarkable success has been achieved by its unflinching adherence to the rule of giving its readers the best that The Star's increasing revenues could furnish and its improved facilities could supply. The Star was the first newspaper to give its readers a full week's papers—six evenings and a Sunday morning—for 10 cents, a thing that could not be profitable except when done on the big scale on which The Star does everything. The Star was also the first to establish a weekly edition for the trifling price of 25 cents a year. 110,000 regular circulation for the weekly edition demonstrates the wisdom of the idea.

Eureka Chemical & Mfg Co., La Crosse, Wis.

Office of THE PIONEER PRESS COMPANY, C. W. HORRICK, Supt.

Eureka Chemical and Mfg Co., La Crosse, Wis.
Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Beeley Cure," "No-To-Bac" and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and today consider myself completely cured. I am in perfect health and the horrible craving for tobacco, which every law-abiding smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.
Yours very truly,
C. W. HORRICK.
